

Environmental Policy Statement

As a manufacturer and global distributor of fire and security products, Vimpex Ltd is committed to developing its activities in a way that respects the environment. Environmental protection constitutes an integral part of the development process and cannot be considered in isolation from it.

We strive to continually improve our environmental performance, and undertake to monitor progress against our environmental objectives and targets, which will be reviewed on a regular basis.

In order to achieve its objectives, Vimpex will develop and implement an Environmental Management System (EMS), which meets the requirements of ISO 14001:2004. On a day-to-day basis, we are committed to complying fully with our legal obligations and to the prevention of pollution.

We will ensure that this policy and associated environmental initiatives are understood, implemented and maintained throughout the company via education and training. We will also encourage the active participation of employees in the development of environmental initiatives and will work with our suppliers and customers to achieve our aims.

Vivian T. Jones

Managing Director – Vimpex Ltd
